Premium quality,
multi-purpose paper for
professional documents
and high-standard printing

Double A Premium is a medium-high-grammage paper designed for printing premium professional documents such as reports or presentations.

To achieve the very best render for this type of document, printers need premium-grade paper with the right weight and composition. Our product strikes the right balance, making it an excellent choice for high-standard printing.

Bending stiffness CD (mN)	> 50

These values are indicative only. Valid from October 2022

At *Double A*, sustainability begins with using sustainably grown trees which help fight climate change. We source certified wood and wood from a special fast-growing type of tree developed for making *Double A* Paper called the *Paper-Tree*, avoiding logging of natural forests.

Double A is also a member of Programme for the Endorsement of Forest Certification (PEFC) International Stakeholder Member.

Feel good paper

**PREMIUM QUALITY
PROFESSIONAL RESULT**

Superior formation with unique fiber characteristics result in Double A's smooth surface.

In an independent test, Double A ran through a high-speed copier for 24 hours without a single jam.

Wow Them With Your Work Presentation

All of our Double A paper offers the benefits you'd expect from a company committed to making a better paper and a better world. Consistent high quality. A commitment to the environment.

Double A delivers all of this so you can deliver your best work every time.

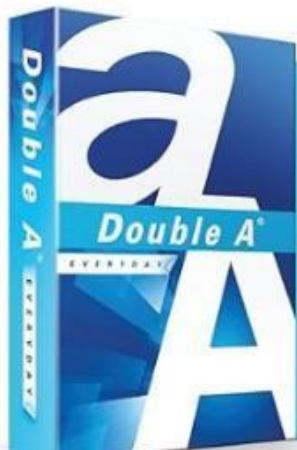

Double A

P R E M I U M

*Premium quality 80 gsm,
a multi-purpose paper for
professional documents
and high-standard printing.*

- ☑ Smoother
- ☑ Sharper prints
- ☑ Thicker for double-sided use

Double A

E V E R Y D A Y

High quality 70 gsm, a low-grammage paper designed primarily for high-volume printing and for everyday use

Double A Everyday weighs in at 70 gsm, making it the thinnest product in our entire range. While it is lighter and thinner than our other paper products, there's no compromise on quality.

Double A

At *Double A*, sustainability begins with using sustainably grown trees that help reduce carbon dioxide and help fight climate change.

ZERO TREES FROM FOREST

**Professional quality paper
made from environmentally
sustainable sources**

*The remarkable qualities of **Double A** paper are derived from the high fiber content of the **Paper-Tree**.*

*The 30 million fiber per gram content of the material sourced from the **Paper-Tree** to produce **Double A** paper makes it possible to result in excellent smoothness, sharper prints, and two-sided use of the paper.*

Our mission is to enable a greener and better world for all stakeholders by continuously adapting, innovating, and finding new ways in our value chain to utilize sustainable wood-base fiber resources.
